

Project Name: Blue Cross / Blue Shield

Location: Detroit, MI

Architect: Neumann/Smith Architecture

General Contractors: Turner

WetSuit Applicator: Schreiber Corp.

Year Completed: 2008

Square Footage: 45,000

A major renovation at the Blue Cross / Blue Shield headquarters in Detroit, called for half their existing parking garage to be removed as well as the 5th floor. The remaining 45,000 sq.ft. 4th floor became the new roof. WetSuit was chosen for its monolithic coverage, limited maintenance, and an FM wind uplift of Class 1-990 over concrete.
